

**n.o.w.**

One day I there I was ... staring at the sea  
I looked all around me 'cause it was all too good to believe  
Walking down the street I know ... in strange places  
Looking all around at all of the people's faces

I'm in the n. o. w.  
In the n. o. w.

One day I sat home all alone  
And I allowed my mind to fully roam  
I sent it out and down the street  
You wouldn't believe the people I did meet.

I'm in the n. o. w.  
In the n. o. w.

I went to work and I did my thing  
I made so much money that I didn't know what to think  
The future comes so fast  
And everything else happened in the past

So join me in the n. o. w.  
In the n. o. w. (et al)
